

# Painting the Roses Red

CREATED AND MADE BY @DISNEYFOREVERFAMILY

**How to Play:** Each player gets their own sheet. Shuffle cards. Each player takes turns picking up a card and coloring with a red crayon the amount given on the sheet. Whoever colors all the roses on their sheet first wins!

**Options:** You can use dice instead of cards. If you use these cards, I suggest printing on thicker paper (card stock).

**Save Paper:** If you have a laminator, laminate gameboard and use dry erase marker or you could use sheet protector if you don't have a laminator.
